# BIRD-LORE

*A Bi-Monthly Magazine Devoted to the Study and Protection of Birds*

Published for the National Committee of the Audubon Societies, as the official organ of the Societies.

**Edited by FRANK M. CHAPMAN**

Audubon Department edited by MABEL OSGOOD WRIGHT and WILLIAM DUTCHER

*BIRD-LORE'S Motto: A Bird in the Bush is Worth Two in the Hand*

---

**I**FF YOU ARE INTERESTED IN BIRDS YOU WILL BE INTERESTED IN "BIRD-LORE." Its pages are filled with descriptions of experiences with birds in field and forest from the pens of writers who have won world-wide fame as literary naturalists. Among the contributors to BIRD-LORE are

JOHN BURROUGHS

ERNEST THOMPSON SETON

J. A. ALLEN

DR. HENRY VAN DYKE

OLIVE THORNE MILLER

WILLIAM BREWSTER

BRADFORD TORREY

FLORENCE MERRIAM BAILEY

ROBERT RIDGWAY

and numerous other writers known both for their powers of observation and description.

In addition to general descriptive articles, BIRD-LORE has departments "For Teachers and Students," wherein are given useful hints in bird-study, and "For Young Observers," designed to develop the love of birds inherent in all children. These, with reviews of current ornithological literature, editorials, teachers' leaflets, and reports of the work of the Audubon Societies, make a magazine which no bird-lover can do without.

Not less delightful and entertaining than the text are BIRD-LORE's illustrations, which include actual photographs of the birds in their haunts, showing them at rest and in motion, brooding their eggs, or feeding their young, as well as drawings. A feature of the coming year will be a series of plates by Bruce Horsfall accurately illustrating

## THE WARBLERS IN COLOR

with figures of the male, female, and young (when their plumages differ) of every North American member of this fascinating family.

The text accompanying these beautiful pictures will be by Professor W. W. Cooke, from data in the possession of the Biological Survey at Washington, and will give the times of arrival and departure of the Warblers from hundreds of localities throughout their ranges.
